

REMARKS

Claims 1-3 have been cancelled in order to simplify the issues. As the Examiner indicated, the cited references do not disclose the method of mixing set out in allowed claims 4 and 5. While applicant does not agree that claims 1-3 are met by the references of record, it is felt the invention is better claimed as a method.

Since claims 4 and 5 stand as allowed, the present application should now be in condition or allowance, and such indication is respectfully requested.

Respectfully submitted,

Date: November 11, 2005
